

Workshop Servicing VOSA ATF and MOT Centre for Class 4, 5 and 7

To maintain our fleet of hire vehicles in first class condition we have a new and fully equipped modern workshop. This facility is now available to our customers. Falcon Workshop Services deliver both routine maintenance and MOTs to both manufacturer's and operator's standards.

Our aim is to keep your vehicle moving. We understand that within your industry time is of the essence so every vehicle has a defined maintenance and inspection schedule to suit your business needs.

This allows you to concentrate on your core business, in the knowledge that your vehicle is operating within MOT, VOSA and environmental standards.

We offer Class 4, 5 and 7 MOTs, together with our VOSA ATF bay all from our conveniently located Bridgwater Depot just off Junction 24, M5.

Our highly skilled technicians are also fully trained to carry out Loler tail-lift testing and fridge repairs to provide a Fleet solution for your business.

If you need a replacement vehicle during the time yours is undergoing a service or MOT then we can help there too. We can offer a full range of vehicles to meet your needs.

New modern WORKSHOP

Keeping you MOVING
